

PREMIUM TRADITIONAL GAS FIREPLACES

FIREPLACE
XTRORDINAIR

The Right Fireplace Company For You

"For forty years, we have been passionate about the science and art behind making beautiful fireplaces for homes in North America.

We utilize the finest materials and subject them to vigorous testing standards to make fireplaces that stand up to the rigors of time. These fireplaces are the best money can buy.

We have a worldwide reputation for award-winning innovations in fireplace design, and yet the most significant recognition to me is when a family entrusts us to be their fireplace of choice.

Take your time, enjoy looking through this catalog and keep the home fires burning."

A stylized, handwritten signature in black ink, appearing to read "Kurt W. F. Rumens". The signature is fluid and cursive, with a long, sweeping underline.

Kurt W. F. Rumens,
President & Director of Product Design
Travis Industries, House of Fire

Choosing the Right Fireplace Model for Your Home

Fireplace Xtrordinair® offers eleven extraordinary models of premium traditional gas burning fireplaces, with dozens of beautiful designer faces and fireback combinations to personalize your fireplace. While every one of these fireplaces embody the same attention to detail in design and construction, each fireplace collection is quite unique. Sizing and heating capacity range from the petite Bed & Breakfast® to the enormous 4237 fireplace.

Beauty Is Not Optional

All models are available with a wide range of designer faces and grills to personalize the look of your fireplace. Most models offer a "clean face" choice as well, which closely replicates the look of a traditional masonry fireplace with very little metal around the fireviewing glass.

Powerful Heaters

Our premium gas fireplaces are designed to provide radiant heat through the huge fireviewing glass and natural convection through the heat exchanger. This provides the most efficient way possible to keep your home warm and comfortable.

No Power? No Problem!

All Fireplace Xtrordinair® fireplaces will work in a power outage with only one exception: if utilizing the Power Exhaust Vent, electricity is required to operate the fireplace.

Innovations

We are known the world over to be the most creative group of innovators and designers, bringing life to innovations such as:

- Ember-Fyre® (page 8)
- GreenSmart® (page 37)
- Ember-Glo™ (page 23)
- CoolSmart TV Wall™ (page 23)

B & B TRV - INTIMATE PAGES 6-9

Bed & Breakfast® TRV Deluxe

This top or rear vent (TRV) fireplace is ideal for small, intimate settings such as bedrooms, bathrooms and kitchens.

16,500 BTUs

564 COLLECTION

564 TRV Space Saver Basic

564 square inches of glass make this an extremely popular choice.

A shallow firebox design and top or rear venting capabilities allows you the flexibility of adding a fireplace to almost any room in your home.

20,500 BTUs

864 COLLECTION

864 TRV 31K Deluxe

864 square inches of glass is featured to display a bold, beautiful fire. Top or rear venting (TRV) makes installations flexible and is compatible with our CoolSmart TV Wall™ option, which keeps TV clearances safe and attractive. This model also features new Ember-Glo™ under-lit ember bed lighting.

31,000 BTUs

864 TRV 31K Clean Face Deluxe

This model is identical to the 864 TRV 31K, but features a "clean face" look without grills or facing.

31,000 BTUs

4237 TV - GREAT ROOMS PAGES 30-33

4237 TV Deluxe

This model is our largest heater. The 4237 appears to be a large masonry fireplace while embodying the performance and functionality of today's superior gas heating technology. This model can be installed as a "clean face", or you can select the double door accessory.

60,000 BTUs

564 TRV Space Saver Deluxe

This model is a Deluxe version of the 564 Space Saver Basic model.

20,500 BTUs

564 TRV Space Saver Clean Face Deluxe

This model is identical to the 564 Space Saver Deluxe, but features a decorative trim rather than a designer face.

20,500 BTUs

564 TV High Output Deluxe

This model maintains the installation flexibility and similar compact footprint of the 564 Space Saver, while featuring a significant increased heating capacity and your choice of three different burners.

35,000 BTUs

864 TV 40K Deluxe

This fireplace has the huge 864 square inch glass panel and delivers a big fire with a high heat output. This top vent fireplace can also be installed with a CoolSmart TV Wall™ option and features new Ember-Glo™ under-lit ember bed lighting.

40,000 BTUs

864 TV 40K Clean Face Deluxe

This model is the "clean face" version of the 864 TV 40K, offering a look that resembles a traditional masonry fireplace and allows tile or other non-combustible finishes to be installed close to the glass.

40,000 BTUs

864 TSV See-Thru

Designed to be enjoyed from two different rooms at once, the double preview features 1,728 square inches of glass to showcase a beautiful fire in both rooms.

37,500 BTUs

Bed & Breakfast® TRV

864 Collection

4237 TV

NOTE: "Deluxe" models include the GreenSmart® Remote Control, Quiet Convection Fan and Accent Lights.

Bed & Breakfast® TRV Deluxe

Intimate Spaces

- Single Model -

The Bed & Breakfast® Top or Rear Vent (TRV) Deluxe portrait style gas fireplace is designed for intimate spaces such as bedrooms, bathrooms and kitchens. With a 16,500 BTU maximum input this fireplace heats up to 650 square feet. The Bed & Breakfast® TRV features the award-winning Ember-Fyre® Burner, 394 square inches of high quality ceramic glass, a 90 CFM convection fan and rear Accent Lights.

- Viewing Area: Ceramic Glass
- Heating Capacity: Up to 650 square feet
- BTU Input Per Hour: 6,000 (NG) 5,000 (LP) to 16,500 (NG/LP)
- Steady State Efficiency: Up to 77.94% (NG), 81.71% (LP)
- EnerGuide P4 Efficiency: 67.62% (NG) 71.28% (LP)

This cozy beach cabin features the Bed & Breakfast® TRV with the Classic Arch Face and Beehive Brick Fireback.

Bed & Breakfast® TRV Deluxe Gas Fireplace

A quaint Bed & Breakfast overnight stay in the High Sierra Mountains inspired the design for the Bed & Breakfast® TRV fireplace. As the name suggests, the Bed & Breakfast® TRV embodies the beauty and warmth of fire in any cozy space. The tall portrait style of this award-winning fireplace is designed to be showcased off the floor.

The Bed & Breakfast® TRV Features Ember-Fyre® Burner Technology

Is it a Wood Fire or a Gas Fire?

Awarded 'Best of What's New' by Popular Science®

You'll be amazed at the realism of our patented Ember-Fyre® burner technology. Known for its gorgeous, dancing yellow flames and high-definition detailed logs, Ember-Fyre® is the most realistic wood-like gas fire available.

Ember-Fyre® Protected By U.S. Patent #6,602,068, #6,443,726 and other patents pending.

564 Collection of Fireplaces

Bedrooms & Family Rooms

- Four Models -

The 564 Collection includes four mid-sized fireplace models featuring 564 square inches of glass. BTUs range from 20,500 to 35,000. The size and heating capacities of these fireplaces are perfect for heating individual rooms in the home, such as bedrooms, home offices and family rooms.

This sitting room features the 564 TRV Space Saver™ Deluxe adorned with the French Country Face and Common Brick Fireback options.

564 TRV Space Saver™

- Three Models -

**564 TRV Space Saver™ Basic, 564 TRV Space Saver™ Deluxe
& 564 TRV Space Saver™ Clean Face Deluxe**

The 564 TRV Space Saver's name says it all! The shallow firebox design of this fireplace takes up less space in your home which makes installing this fireplace simple. This allows you the flexibility of adding fire to almost any room in your home. This top or rear vent (TRV) fireplace is available in three models for you to choose from: **Basic** or **Deluxe** models featuring our beautiful designer faces (see pages 26-29), or a **Clean Face Deluxe** model.

A single **Basic** model is a great energy-efficient choice for those wanting a simple operating system with no bells or whistles. Both **Deluxe** models include our most popular options, namely, adjustable Accent Lights, a quiet 180 CFM convection fan and the GreenSmart® Remote Control. See page 37 for more information on our exciting GreenSmart® features.

- Viewing Area: Tempered Glass
- Heating Capacity: Up to 950 square feet
- BTU Input Per Hour: 5,100 (NG) 4,200 (LP) to 20,500 (NG/LP)
- Steady State Efficiency: Up to 81.09% (NG), 84.06% (LP)
- EnerGuide P4 Efficiency: 70.46% (NG) 72.65% (LP)

564 TV High Output Deluxe

- Single Model -

The 564 TV High Output Deluxe is a very unique fireplace in our 564 collection for two reasons:

- 1) This model features your choice of three burner options: the beautiful Dancing-Fyre™ Burner, award-winning Ember-Fyre® Burner, or the contemporary Diamond-Fyre™ Burner.
- 2) This fireplace really delivers the heat – with a 35,000 BTU input and high heat transfer ceramic glass, this model is ideal for larger rooms in your home or colder climates.

The 564 Top Vent (TV) High Output Deluxe features the GreenSmart® Remote Control, 180 CFM Convention Fan, Ceramic Glass and Accent Lights. See page 37 for more information on our exciting GreenSmart® features. Find more inspiring options on pages 26 - 29.

- Viewing Area: Ceramic Glass
- Heating Capacity: Up to 1,700 square feet
- BTU Input Per Hour: 10,400 (NG) 7,500 (LP) to 35,000 (NG/LP)
- Steady State Efficiency: Up to 78.1% (NG), 79.69% (LP)
- EnerGuide P4 Efficiency: 64.64% (NG) 66.08% (LP)

Dancing-Fyre™ Burner & Logs

The Dancing-Fyre™ steel burner is featured on most of the fireplaces in our lineup. Dancing-Fyre™ is a beautiful representation of fire with detailed logs and an organic, realistic flame pattern.

Ember-Fyre® Burner & Logs

The award-winning Ember-Fyre® ceramic burner is known for its gorgeous, dancing yellow flames flickering around a high definition log set and glowing embers, presenting the most realistic wood-like fire available. See more on page 8.

This living room features the 564 TV High Output Deluxe with our Custom Shop IronWorks™ Double Door Face, award-winning Ember-Fyre® Burner, and Ledgestone Fireback options.

Driftwood Fire Art™

Fyre-Stone™ Rock Kit

Diamond-Fyre™ Burner & Fyre-Art™

The Diamond-Fyre™ steel burner is perfect for those wanting a contemporary display of fire. This burner features an under-lit bed of colored crushed glass, along with optional Driftwood or Fyre-Stones.

This living room features the 864 TV 40K Fireplace with the Metropolitan™ Face, Common Brick Fireback and Classic Oak Log Set.

864 Collection of Fireplaces

Large Gathering Spaces

- Five Models -

The 864 Collection is comprised of five large sized models featuring 864 square inches of glass. The size and heating capacities of these fireplaces are ideal for providing warmth to living rooms and other large spaces in the home. This collection includes the only see-thru model in our lineup, along with four models that have **brand new features**, such as Ember-Glo™, adjustable overhead Accent Lights, your choice of 10-piece Birch or Classic Oak Log Sets, and the CoolSmart TV Wall™ option.

BRAND NEW

864 TRV 31K Deluxe

- Two Models -

864 TRV 31K Deluxe & 864 TRV 31K Clean Face Deluxe

The 864 TRV 31,000 BTU fireplace is perfect for anyone looking to display a big beautiful fire that provides supplemental year-round heat to spaces up to 1,400 square feet. This top or rear vent (TRV) fireplace is available as a Clean Face Deluxe model, or a Deluxe model with one of our beautiful designer faces (see pages 26-29). The 864 TRV 31K includes new features such as Ember-Glo™ ember bed lighting, adjustable overhead Accent Lights, the CoolSmart TV Wall™ option and your choice of stunning 10-piece Classic Oak or Birch log sets.

In addition to the great new features listed above, both of these Deluxe models feature the GreenSmart® Remote Control and 180 CFM convection fan. See page 37 for more information on our exciting GreenSmart® features.

The 864 TV 40K Clean Face Deluxe model features the 2" Trim Kit, Birch Log Set, and the Polished Concrete Mantel from our Custom Shop.

BRAND NEW

864 TV 40K Deluxe

- Two Models -

864 TV 40K Deluxe & 864 TV 40K Clean Face Deluxe

The 864 TV 40K is our 'best in class' fireplace. This top vent (TV) 40,000 BTU fireplace is ideal for heating larger homes and living spaces up to 2,000 square feet. The 864 TV 40K is available as a **Clean Face Deluxe** model, or a **Deluxe** model featuring our wide selection of designer faces (see pages 26-29). This fireplace includes new features such as Ember-Glo™ ember bed lighting, adjustable overhead Accent Lights, the optional CoolSmart TV Wall™ and your choice of our beautiful 10-piece detailed Classic Oak or Birch log sets.

This **Deluxe** fireplace also features the GreenSmart® Remote Control and 180 CFM convection fan. Learn more about our exciting GreenSmart® features on page 37.

- Viewing Area: Ceramic Glass
- Heating Capacity: Up to 2,000 square feet
- BTU Input Per Hour: 11,000 (NG) 12,000 (LP) to 40,000 (NG/LP)
- Steady State Efficiency: Up to 82.04% (NG), 83.93% (LP)
- EnerGuide P4 Efficiency: 72.59% (NG) 74.19% (LP)

Choose Your Log Set

Classic Oak
10 Piece high definition log set

Birch
10 Piece high definition log set

This living room features the 864 TV 40K Deluxe with the MetalSmith™ Face from our Custom Shop, Black Glass Fireback, and Birch Log Set.

Two New Features Found Only with the 864 TRV 31K and 864 TV 40K Fireplaces

1. Ember-Glo™ (Included)

Ember-Glo™ combines adjustable halogen under-lighting with colored glass and embers in front of the fire to provide an amazingly realistic ember bed effect.

This new dramatic feature is turned on and off with the GreenSmart® Remote Control.

2. CoolSmart TV Wall™ (Optional)

- (A) Cool room air is naturally pulled into the bottom of the convection chamber surrounding the firebox.
- (B) If the convection fan is turned on, a major portion of the heated air is returned to the room above the fireviewing glass.
- (C) The CoolSmart TV Wall™ allows a TV to be safely installed above the fireplace (minimum distance above fireplace of 11-1/2").
- (D) If the fan is turned off, cool room air (A) and the majority of the heated convection air (B) are naturally drawn up through the CoolSmart Heat Vent (D) and returned to the room above the TV.

864 TSV See-Thru

- Single Model -

The 864 TSV See-Thru is the perfect choice for anyone wanting to divide a large living space or integrate two separate rooms. The unique see-thru design allows you to personalize each side of the fireplace, and the beautiful 9-piece log set offers a different look from either side. This top or side vent (TSV) model features a 37,500 BTU input and provides heat up to 1,500 square feet, making it perfect for medium to large homes or living spaces.

This model features side Accent Lights. The GreenSmart® Remote Control, along with the 130 CFM convection fan (which delivers heated air on both sides of the fireplace) are optional accessories. Learn more about our exciting GreenSmart® features on page 37.

- Viewing Area: Tempered Glass
- Heating Capacity: Up to 1,500 square feet
- BTU Input Per Hour: 14,700 (NG) 10,000 (LP) to 37,500 (NG/LP)
- Steady Sstate Efficiency: Up to 83.07% (NG), 85.92% (LP)
- EnerGuide P4 Efficiency: 74.55% (NG) 73.99% (LP)

4237 TV Deluxe

Great Rooms

- Single Model -

The grandest of our premium fireplaces, the 4237 Top Vent (TV) **Deluxe** is a massive showstopper that is perfect for great rooms with its 42" wide by 37" high (1,554 square inches) glass and generous heat output. The magic of the 4237 TV lies within its ability to express the appeal of an open masonry fireplace while embodying the performance and functionality of today's superior gas heating technology. The 4237 TV features a beautiful fireview, with 10-piece detailed Bon-Fyre™ and Western Timber™ log sets to choose from. This top vent fireplace is available as a "clean face" installation, or you can add the hand-hammered IronWorks™ double doors (*shown to the right*).

The 4237 TV is a full feature **Deluxe** fireplace. Just as the name "Deluxe" implies, this fireplace includes the GreenSmart® Remote Control, 260 CFM Convection Fan and overhead Accent Lights. See page 37 for more information on our exciting GreenSmart® features.

- Polished Gray Concrete Mantel and Hearth
- Cedar Mantel and Hearth
- Bon-Fyre™ Log Set

STEEL FORGING

- Artisan™ Face Collection
- IronWorks™ Face Collection
- Timberline™ Face Collection
- MetalSmith™ Face Collection

Custom Hand-Forged Face Designs

Each Artisan™ IronWorks™, Timberline™, and MetalSmith™ face is hand crafted by in-house blacksmiths through a skillful and labor intensive metal forging process. From start to finish this process requires focus, stamina and an artful eye. Every individual piece of metal is heated in a forge at extremely high temperatures, hand-hammered and worked multiple times to complete an authentic finished product with textured surfaces, hammered edges and incredible attention to detail. Each face is an individual custom work of art that bears unique, subtle characteristics from the hands of its creator.

Hand-Rubbed Bronze Patina

This finish features warm undertones that are absorbed deep into the metal, giving it the luster and beauty of an oil-rubbed bronze piece of art.

Hand-Rubbed Burnished Patina

This finish offers a timeless look that resembles worn, aged steel with beautiful textures that create subtle high and low lights.

*This traditional home features the 864 TRV 31K
Deluxe with the Common Brick Fireback and
Artisan™ Bronze Patina Face from our Custom Shop.*

Custom Shop Mantels

(for all models)

Add a bold statement to your fireplace with one of our unique, hand-crafted mantels that are designed and created by our in-house artists. These non-combustible mantels come in both 5' and 6' lengths, and can also be used as a hearth.

Polished Gray Concrete Mantels

Each mantel is individually crafted to expose a smooth, polished quartz surface that offers a bold, contemporary look.

Hand-Hewn Timber Mantels

This is a realistic reproduction of a 150-year-old fir timber. Our artists individually hand-paint each mantel with incredible attention to detail. We challenge anybody to tell the difference between this reproduction and the authentic timber. Hand-Hewn Timber Legs are available for the 6' mantel to achieve a three-sided Timber mantel installation.

Cedar Mantels

We use a special fiber reinforced cast concrete to reproduce an actual cedar beam. Each mantel is then individually hand-painted.

All of our Deluxe Premium Gas Fireplaces feature the patented GreenSmart® System. This proprietary system is the most innovative collection of components, controls and technology that when combined provides an elegant, greener and smarter way to heat your home.

GreenSmart® Deluxe Multi-Function Wireless Thermostat Remote Control

(Optional with the 564 TRV SS Basic and 864 TSV See-Thru Models)

- Two Thermostat Modes
- Flame Adjustment (6 levels)
- Change Between GreenSmart® and CPI Pilot Modes
- Fan Operation (6 levels)
- Comfort Control™ (Controls rear burner)
- Accent Lights (6 levels)

Manual Setting

ON/OFF, Fire and Fan stay where you manually set it.

Thermostat Setting

Fireplace turns ON or OFF to maintain your desired home/room temperature.

Smart Thermostat Setting

"Smart Thermostat Mode" automatically adjusts the flame height based on the temperature setting, so the flame will modulate up/down as opposed to shutting OFF/ON like normal thermostats. This setting conserves fuel and maximizes the fireplaces heating ability while extending the viewing pleasure of the fire.

Choice of Pilot Modes

Easily Switch Between Pilot Modes:

GreenSmart® Mode

Use in Summer or milder heating days to reduce gas consumption from the Pilot.

CPI - Continuous Pilot Mode

Keeps the Pilot on at all times. This warms the vent system to maintain a strong draft in your chimney and reduce moisture condensation on the glass. Used in Fall/Winter or in cold climate areas.

The GreenSmart® system includes a battery back-up, ensuring proper ignition even during power outages.

Flame Adjustment

Adjust the height/heat of the flame. 6 levels of flame heights to choose from.

Convection Fans

Circulate room air around the firebox and deliver heated air into your home. 6 speeds to choose from.

Comfort Control™

Comfort Control turns off the rear burner while leaving the front burner on for an attractive flame when heat output is not the priority. This feature offers a turn-down ratio of up to 75 percent and offers a more efficient way to heat your home by only burning the correct amount of fuel to keep a constant room temperature.

(This feature is not available on the 4237)

Accent Lights

Accent Lights are a standard feature in all Deluxe fireplaces. This feature adds a warm glow to both the logs and fireplace interior, and can be used when the fire is on or off.

Perfect as a nightlight or soft indirect light for the room, the Accent Lights allow for visual enhancement of your fireplace 365 days a year.

6 levels to choose from.

Accent Lights Off

Accent Lights On

All Fireplace Xtrordinair® Gas Fireplaces Feature Direct Venting

The American Lung Association discourages the use of vent-free fireplaces for health and environmental reasons. They recommend homeowners choose only sealed, direct vent gas fireplaces to preserve indoor and outdoor air quality and to prevent by-products such as carbon monoxide, soot and nitrogen dioxide from entering your home. In direct vent installation, combustion air is drawn into a sealed firebox and flue gases are exhausted through a co-linear or co-axial intake/exhaust pipe. Direct vent gas fireplaces also prevent excess moisture from building up in your home. All Fireplace Xtrordinair® direct vent gas fireplaces are sealed and meet the guidelines of the American Lung Association's Health House program.

Power Exhaust Vent Kit Option

Our Power Exhaust Vent Kit allows you to install our gas fireplaces virtually anywhere in your home, by accommodating even the most difficult venting restrictions. This Power Exhaust Vent Kit provides vent runs up to 100 feet, or up to 50 feet either horizontal or vertical, with a maximum of 12 elbows! This option requires electricity to operate your fireplace. *(Not available with the Bed & Breakfast model).*

HORIZONTAL TERMINATION ONLY

The flush design of the Power Exhaust Vent termination complements any home's exterior.

The diagram illustrates the Power Exhaust Vent Kit installation. It shows a fireplace unit with a vent pipe that runs horizontally through the ceiling and then vertically through the roof. Red arrows indicate the direction of exhaust flow. The vent pipe is shown with multiple elbows, demonstrating its flexibility in installation.

Add the Beauty of a Fireplace Xtrordinair® Gas Fireplace to Your Outdoor Living Space

Outdoor living rooms and entertainment spaces are among the most requested room additions found in new home construction and remodels. A fireplace is the perfect accompaniment to any outdoor living space, as it provides warmth and comfort on those cool nights, as well as creates a relaxing ambiance and fun gathering place.

All Fireplace Xtrordinair® gas fireplaces are approved for outdoor installation in a covered area. With our wide variety of fireplace styles, you'll be sure to find one that will complement your outdoor living space.

Your Fireplace Xtrordinair® dealer can answer any questions about installing an outdoor fireplace.

Note: The 864 See-Thru fireplace cannot be installed as an Indoor/Outdoor Fireplace.

Vent Heat To Other Rooms With The Power Heat Duct Kit Option

The Power Heat Duct Kit is perfect for times when you want to enjoy the beauty and ambiance of your fireplace without all the heat in the room the fireplace is located.

This optional feature gives you the ability to redirect up to 50%* of the heat from your fireplace into one or two additional rooms within 20 feet of the fireplace. This allows you to properly manage the heat output throughout your home so that you can maintain a comfortable temperature in your main living space without having to turn down the fire.

** When using two kits.*

(Not available with the Bed & Breakfast model).

Real World Warranty

Your gas fireplace is backed by a network of Specialty Hearth Dealers and certified factory trained installers. Fireplace Xtrordinair® warrants our products to be free from defects in material and workmanship for a period up to seven years from the date of purchase. All parts, electronics (except light bulbs), and labor are covered for a full two years. Trims and faces are covered for a period of two years. No other manufacturer's warranty can compare.

<p>The dimensions and clearances on this page are for reference only!</p> <p>Refer to the Owner's Manual prior to installation. We recommend all Fireplace Xtrordinair® appliances be installed, and maintained on an annual basis by your Specialty Hearth Retailer.</p>	B & B - Intimate		564 Collection - Bedrooms & Family Rooms

Design Your Perfect Fire Online

Visit the www.fireplacex.com website. The Fireplace Xtrordinair® Fire Designer can help you customize your fireplace with an easy and fun website that helps you choose the right fireplace for the right space with the right look. You can even upload a photo of your room and overlay the fireplace of your choice to get a preview of your incredible new fire.

Professional Hearth Retailers

Only the most professional specialty hearth retailers are selected to sell Fireplace Xtrordinair® fireplaces. They represent our total commitment to exceptional products and excellent service. In addition, they have successfully completed special training programs in the proper selection, installation, and service of all Fireplace Xtrordinair® products.

Your professional Fireplace Xtrordinair® hearth dealers are experts who can advise you on everything from customizing the color of your appliance to selecting appropriate venting and chimney materials.

Additional Hearth Products

Fireplace Xtrordinair® produces a wide variety of quality wood, and gas appliances. Find your favorite fire today by visiting: www.FireplaceX.com.

Made In America

Our fireplaces are proudly manufactured in America at The House of Fire. If you're ever in the Seattle area, we invite you to take a free tour of The House of Fire world-class manufacturing plant. You will meet the artisans, engineers, craftsmen and craftswomen who design and hand build these fabulous fireplaces. Wear comfortable shoes, the factory is eleven acres indoors!
