

Northfield, Berkshire, Greenfield Radiant MV Cheat Sheet

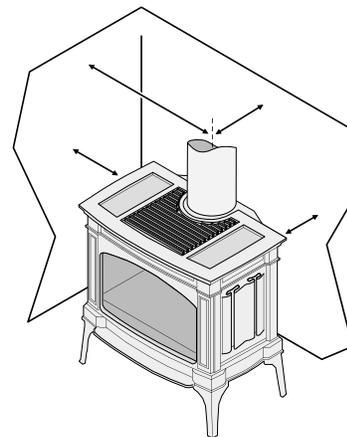

The stoves listed above have several new features and characteristics that require special attention during installation and set-up. These units use the SIT millivolt gas valve that we have used in prior years. Refer to the installation manual for full details.

Higher BTU's than the Previous Version

- Northfield Radiant MV - Max BTU input of 22k BTU's/hr (previously was 19k)
- Berkshire Radiant MV - Max BTU input of 31k BTU's/hr (previously was 28k)
- Greenfield Radiant MV - Max BTU input of 40k BTU's/hr (previously was 31k/35k)

Clearances and dimensions are the same as previous Northfield MV

Even with the increased BTU's, the clearances and floor protection requirements remain the same (see manual for details).

LP (Propane) Conversion

Everything needed for converting to LP gas is included with the stove.

Optional Accessories Available
