At Sundance® Spas, we think you should

do more of what matters to you

And with 40 years of experience crafting high quality spas, we take pride in helping people spend time meaningfully. So go ahead and relax more. Let your mind wander. Savor each and every moment. Celebrate life. Start your **#Sundancelife** today. You deserve it.

Connection

Our products provide an environment where you can nurture relationships and enhance your life, bringing social circles together and couples and families closer. By removing you from life's distractions, our spas give you exactly what you need to be your true self.

Loyalty

Built on trust and a commitment to excellence, the relationship we have with our customers will always be our foundation. By carefully selecting each of our dealers, we can ensure that you are enjoying outstanding products and services that reinforce the reputation we have earned over several decades.

Craftsmanship

We want you to relax when you're in your Sundance® spa. So we give you the confidence that your spa has everything you need and nothing you don't. Backed by personal experience, a solid reputation for reliability and the best dealer network, you can focus on distraction-free interactions with those that mean most to you.

Our Promise to You

It's more than a spa,
it's a way of life

"The quality, design and performance of the spa is exceptional. I look forward to using it almost everyday for relaxation and sleep enhancement, as well as the hydrotherapy benefits for a lower back injury."

- Ron R.

Sundance® Optima™ 880™ Series Owner

"It is so far superior to the old spa we had which was part of our pool as it actually has jets you can control and there are four great seats to choose from."

- Norm E.

Sundance® Optima™ 880™ Series Owner

Once you experience it, you'll see why owners buy again and again: life is better with a Sundance® spa. Start your own **#SundanceLife** and join in the conversation.

Benefits of Hydrotherapy

Renewal

By getting a break from the pace of our lives and submersing in an emotional sanctuary, you can relax, rejuvenate and rehabilitate your body, mind and soul.

Stress-Relief

Everyday stress can create muscle tension and restrict blood flow, causing headaches, sleeplessness, fatigue and soreness. And how we feel physically can affect our thoughts, moods and ability to enjoy life to the fullest. Hydrotherapy is an effective solution to free your stress.

Healing

While water therapy of the past has evolved into modern hydrotherapy of today, Sundance® Spas continues the tradition of using the restoring properties of water - especially those involving warm water infused with deep massage - to provide the relaxation and nourishing rejuvenation for which the human body craves and immensely benefits from.

Aromatherapy

Sundance® Spas was the first hot tub manufacturer to combine aromatherapy with hydrotherapy in an automatic fragrance system. Without lessening water quality, Sundance® SunScents™ are injected into bubbles and then released when they come to the surface, leaving you feeling renewed.

Chromatherapy

Light has a profound effect on our moods and peace of mind. Chromatherapy, also known as color therapy, uses individual colors in the spectrum to boost and balance energy in your body.

Art of Relaxation

The benefits of hydrotherapy go beyond relaxation; it is about restoring balance. And, in a Sundance® spa you will quickly feel the difference.

The secret is in the Fluidix® jets, each designed to mimic a special technique of a trained masseuse. From deeply penetrating to soothingly calm, the more Fluidix® jet variety you experience the deeper sense of relaxation you can achieve.

Built with You in Mind

Maximize relaxation with features that make spa ownership a breeze. Every element is designed specifically for your Sundance® spa for quality and reliability that's built in.

EcoWrap® Insulation

A more energy-efficient upgrade option for select models, ideal for harsh, winter climates.

Synthetic Base

Provides a solid foundation impervious to nature, moisture and the elements.

Quick Drain™

Quickly drain the water from your spa with an oversized drain that makes water changes easy.

Rigid Bond™

Proprietary shell lamination process makes it stronger and increases thermal retention properties.

SmartTub™ System

Stay in tune with your spa remotely, from maintenance alerts to programming filtration whenever, wherever ...24/7.

Efficient Heater

Heating element transfers heat to the water, increasing thermal efficiency and resisting corrosion.

SunStrong® Cabinet

High quality, UV-resistant synthetic cabinetry is durable and low maintenance.

Tool-free Access

Easily access the drain and critical components in your spa without tools, saving time and making maintenance trouble-free.

Intelligent Controls

Sundance® control panels do more than adjust jets and temperature; you can regulate energy-efficiency, lock the spa for safety and are easy to see at night.

Lighting

Great for both ambiance and safety, a variety of spa lighting illuminates the inside and outside of select models for nighttime spa enjoyment.

Illuminated Grab Bars

Strategically placed grab bars on most 880™ Series models make entering and exiting the spa simple and safe for everyone in your family.

Indicator Light

Check the status of your spa's functions with a quick glance at the exterior indicator light, which changes colors when your spa needs immediate attention.

Patented Fluidix® Jets

As you surrender to the warm, bubbly water of a Sundance® spa, you'll be whisked away by the right blend of heat, buoyancy and massage that will change the way you feel.

This care-free feeling starts with Fluidix® jets that operate without bearings that can clog or parts that wear out, combining air and water to create highly refined massage sensations. And, each jet is positioned to reach pressure points used in reflexology and acupressure so stress and strain can be a distant memory.

Even if you don't know the difference between Swedish massage and Shiatsu, you'll be enchanted by the variety of massage combinations Sundance® spas deliver. Every Fluidix® jet is assigned a distinct role, uniquely designed to simulate a specific massage action. Air-only jet streams feel like delicate fingers massaging soft tissues. Other jets act more like strong hands deeply kneading large muscles. And some even mimic the rapid, stimulating techniques of Eastern massage therapies.

Regardless of which Fluidix® jet combination you call your favorite, you can get the most from your Sundance® spa.

Easy, Clean Water Management

Sundance® Spas filtration systems not only help to ensure clean, sparkling water, they also equal less maintenance. Through the efficient combination of highly effective filtering, water circulation and water skimming processes, a unique horizontal filter orientation and a circulation pump that filters seven times more water per minute than typical spas, you can spend less time on maintenance.

And, when you combine superior filtration with the CLEARRAY® UV-C Technology or CLEARRAY® UV-C Technology plus CLEARRAY® PRO₃TECT™ Automatic Oxidizer, you can achieve the clearest, cleanest water with this complete, hands-free option.

SunPurity™ Minerals
Conditions water with trace elements of silver to keep your hot tub water fresh when used alongside chlorine or bromine.

SunPurity™ PLUS
Boosts system performance and provides a full system clean.

Water Chemicals
A complete line of water care products that support the proper foundation for balanced water.

MicroClean® Ultra Filtration System

MicroClean® Ultra Filtration System with horizontal MicroClean® Ultra filter, SlipStream™ weir with SunPurity™ mineral cartridge fitting, Dynamic Flow™ circulation pump and CLEARRAY® UV-C Technology set the standard for robust, efficient water filtration.

CLEARRAY® UV-C Technology

Treats water with the power of nature-inspired UV-C technology to neutralize waterborne pathogens, resulting in clean, fresh water.

- Treats 99.9% of waterborne pathogens
- Factory-installed exclusive UV-C Technology
- Easy care and maintenance with annual bulb replacement
- Durable stainless steel and quartz components

What is UV-C Light?

- A natural part of the spectrum of electromagnetic energy generated by the sun
- Effectively interacts with the DNA of bacteria and viruses, destroying their ability to reproduce
- Is a natural process that adds no by-product to your water
